BIBLE JUMANJI

Bible Jumanji is based off the movies that share the name Jumanji. It follows a group of teenagers who are transported back to Bible times through a video game. Our brave adventurers were Roger, Kame, Korie, and Walker. Through their time they encountered many Biblical stories, but not only did they have to learn them, they had to participate either through a challenge or being a part of the story themselves. They put the Patriarchs in order, and figured out which two didn't belong. They solved the disappearance of Joseph, and how he ended up in Egypt, all while trying to break part of their group out of an Egyptian prison. They saw water turn to blood, and figured out the ten plagues and even

walked around the walls of Jericho and saw them fall! Each time the game would give them a new clue, and they would get one step closer to coming home. They learned to tell the Judges apart, and prepared to fight a giant, they even lost to King Solomon in a game of trivia. It was always an adventure no matter where they ended up. That's really what we try to capture with Kidspiration, each week we seek to bring a Bible story to life to these young people. We want these kids to realize not only how exciting these stories are, but how important they are to us. So even if you missed Bible Jumanji, the next Kidspiration quarter is right around the corner and I'm sure it's **gonna be out of this World!**
